UFe

Union Française de l'Électricité

About us

The Union of the French Electricity Industry (UFE) is the trade association of the French electricity sector. We represent companies from the whole value chain of the electricity industry: producers, transmission and distribution system operators, suppliers of electricity and energy efficiency services.

We bring together more than 500 companies, gathering more than 300 000 direct and indirect jobs. UFE is a French and European actor of major importance, committed to the fight against climate change. We are committed to accelerating the transition towards a carbon-neutral economy. We also represent employers of the electricity sector in the branch of gas and electricity industries.

500 companies make up the electrical industry	**300** experts from our companies involved	**300,000** direct and indirect jobs	**27%*** share of electricity in France's final energy consumption
148.4 GW* installed electrical capacity of the French generating fleet and a volume of 494 TWh	**99.99 %*** availability of electricity throughout the year	**92.2%*** electricity production in France provided by decarbonized sources	**1st*** net exporter in Europe with 50 TWh
